

Gopesh Kumar Jangid

Full Stack Web Developer

Personal Details

-  gopeshsharma594@gmail.com
-  +91 84418 06773
-  Sawai Madhopur, Rajasthan
-  linkedin.com/in/gopesh-jangid-ab1569227
-  github.com/gopeshkumarjangid

Skills

- C, C++
- Java
- Python
- IOT
- HTML
- CSS
- JavaScript
- React
- Node Js
- Express Js
- MongoDB
- MySQL
- DSA
- OOPs
- DBMS

Education

Bachelor of Technology (Dec 2021 – May 2025)
University Department of Rajasthan Technical University, Kota
Overall CGPA: 9.56

Projects

- Prepaid Electrical System with Automation**
Developed a prepaid IoT-based electrical system enabling remote monitoring and control of energy usage with real-time balance deduction. Integrated smart energy meter with microcontroller (e.g., Arduino/ESP32) for accurate power consumption tracking and automated load management. Designed and implemented a web dashboard to display user balance, consumption trends, and recharge options..
- IOT based Flight Controller**
Developed a comprehensive flight controller system that integrates both hardware and software components to manage and stabilize UAV (Unmanned Aerial Vehicle) operations.
- Codru Education Website**
Developed a full-stack educational platform designed to enhance student learning experiences by providing a user-friendly interface for managing academic resources and information. Technologies Used: Frontend: React, Backend: Node.js, Express.js Database: MongoDB
- Women Safety Android Application**
Developed a Women Safety Android application in Java featuring voice-activated calling, power button trigger, and shake detection for emergency situations in android studio using java.

Internships

Software Developer Intern
Codru Education (May 2024 - Jul 2024)

- Educational Platform:** Contributed to full-stack platform development.
- User Experience:** Helped design a responsive interface.
- API Development:** Created RESTful APIs.
- Testing & Debugging:** Ensured app performance and reliability.

Certificates

Software Development Intern
Codru Education (Jun 2024)

- Built RESTful APIs as part of internship project.
- Completed full-stack MERN web development tasks.
